

## Jose Acosta

Front End Developer | Informatic Engineer

Tegucigalpa, Honduras.

[Portfolio](#) | [LinkedIn](#) | [Email](#)

## Summary

Dedicated Front End Developer with extensive expertise in React.js and React Native development. Solid Knowledge of JavaScript and TypeScript, with a passion for simple, maintainable, and readable code. Experienced in optimizing responsive designs for diverse platforms. Familiar with CI/CD pipelines, Git version control, and a proven track record of creating intuitive user interfaces tailored for optimal performance.

## Work Experience

### BANHCAFE

2022-present

#### Front End Developer

- Designed and developed a user-centric mobile banking application for BANHCAFE, resulting in a 60% increase in mobile transactions and enhancing customer engagement with more than 6,000 active users.
- Optimized the application's performance, leading to a 22% decrease in loading times and improving user retention rates.
- Implemented responsive design principles to ensure optimal performance across a diverse range of devices, enhancing overall user experience.
- Architected and deployed a BANHCAFE Token App, ensuring seamless, secure authentication and transaction processes for over 4,000 users.
- Led the development of the official BANHCAFE website, driving a 10% increase in web traffic and a 15% rise in user engagement within the first quarter post-launch.
- Optimized website performance, achieving a 52% decrease in page load times and enhancing the overall user experience.
- Implemented SEO best practices, resulting in a 15% increase in organic search visibility and driving new customer acquisitions.
- Experience collaborating with cross-functional teams to define, design, and implement new features or enhancements to existing applications.
- Integrated RESTful APIs and implemented modern authorization mechanisms to enhance application security and functionality.
- Demonstrated strong problem-solving skills and adaptability to work in a fast-paced environment, showcasing my ability to tackle challenges and deliver results efficiently.

### Lucky Shoes

2023-present

#### Full Stack Developer | Freelance

- Leading the full-stack development and UI/UX design for the upcoming Lucky Shoes Sneaker E-commerce platform, aimed at capturing a significant share of the sneakers market upon launch.
- Driving the development of key features and functionalities, focusing on scalability and performance optimization, anticipating a 65% projected increase in user engagement post-launch.

- Strategizing SEO, targeting a 15% projected rise in organic search traffic and brand visibility upon the website's official launch.

## Internship

2021-2022

### Full Stack Developer

- Engineered and deployed an e-commerce website and mobile application using React and React Native, elevating the company's digital presence and 18% expanding its reach to new business clientele.
- Demonstrated experience developing and maintaining web applications using JavaScript, with a strong focus on React.js and associated libraries/frameworks.
- Demonstrated familiarity with common front-end development tools such as Babel, Webpack, NPM, PNPM, etc.
- Spearheaded collaboration with the company's team, analyzing requirements, crafting intuitive user interfaces, and delivering solutions 20% ahead of schedule.

## Education

### CEUTEC

2017-2022

### Informatic Engineering

- Focused on comprehensive informatics engineering studies, encompassing software development, algorithms, data structures, and system architecture. Engaged in hands-on projects to enhance practical skills and contribute effectively to technical endeavors
