SUMMARY

Experienced Front-End Developer with a strong focus on user-centered design and iterative development. Adept at building web and mobile applications, translating product requirements into top-performing user experiences. Collaborative team player passionate about continuous improvement and scaling products over time.

EXPERIENCE

BANHCAFE   September 2022 – Present
FRONT END DEVELOPER

RESPONSIBILITIES

- Crafted responsive and user-centric interfaces for BANHCAFE's digital platforms, utilizing advanced technologies such as React Native, Expo, React and Next.js.
- Collaborated closely with cross-functional teams to gather requirements and skillfully translate them into innovative solutions.
- Implemented responsive design principles to ensure optimal performance across a diverse range of devices, enhancing overall user experience.
- Demonstrated a proactive approach by continuously staying updated with the latest industry trends and technologies, contributing to the continuous enhancement of the bank's digital products.

KEY ACCOMPLISHMENTS

- Developed and successful launch BANHCAFE's app, marking the bank's entrance into the competitive mobile app market. Engineered with React Native, taking charge of UI/UX design, the app showcases an elegant and intuitive interface that significantly elevated customer satisfaction. This groundbreaking step led to an impressive 40% upsurge in mobile banking adoption, solidifying the bank's position at the forefront of modern financial technology.
- Developed BANHCAFE's official website, seamlessly applying responsive design principles and harnessing React with Next.js, optimizing loading speed by 35% and improve CEO. The result: a technologically advanced, user-friendly interface that showcased the commitment to innovation and efficiency.
- Developed "BANHCAFE Token Digital" app, introducing a secure and user-friendly method for customers to generate and utilize digital tokens for authentication during transactions. This groundbreaking innovation bolstered security measures and streamlined transactions, leveraging the robust capabilities of React Native CLI.
- Collaborated with marketing department, graphic designer and stakeholders to execute seamless integrations, ensuring smooth transitions for the bank's digital solutions, contributing to efficient project delivery.

LUCKY SHOES   January 2023 – Present
FULL STACK DEVELOPER - FREELANCE

RESPONSIBILITIES

- Collaborated with Lucky Shoes to understand their requirements and translate them into technical solutions.
- Conducted regular meetings with the client to gather feedback, discuss progress, and address any concerns or issues.
- Designed and developed the Front-End and Back-End components of the e-commerce website, ensuring functionality and user-friendliness.

KEY ACCOMPLISHMENTS

- Increased Lucky Shoes' online presence and customer base by developing and launching an e-commerce website powered by Next.js and React, that effectively showcased their products and facilitated nationwide customer reach.
- Utilized responsive design principles to create a seamless user experience across various devices, resulting in improved user engagement and satisfaction.
- Implemented efficient coding practices and optimized website performance, this meticulous optimization, driven by Next.js contributed to reduced page load times and enhanced user experience leveraging of new react server components(RSC).
- Developed CMS to manage all website data, streamlining product management, inventory control, and customer information management.

INTERNSHIP
FULL STACK DEVELOPER

September 2021 – July 2022

RESPONSIBILITIES

- Collaborated with the company's team to understand requirements, design user interfaces, and deliver solutions on time and within budget.
- Developed an e-commerce website and a mobile application powered by React and React Native, enabling them to showcase software solutions to businesses.
- Implemented responsive design and optimized performance to ensure a seamless user experience across devices.

KEY ACCOMPLISHMENTS

- Successfully developed an e-commerce website and mobile application, increasing the company's online presence and generating new leads.
- Enhanced user experience by implementing responsive design techniques, resulting in increased user engagement and customer satisfaction.
- Streamlined the development process by effectively collaborating with the company's team, resulting in efficient project delivery and cost savings.
- Utilized the latest front-end technologies and frameworks, such as React, to create visually appealing and interactive user interfaces.

EDUCATION

CEUTEC
INFORMATIC ENGINEERING

Tegucigalpa, Honduras 2022

- Focused on comprehensive informatic engineering studies, encompassing software development, algorithms, data structures, and system architecture. Engaged in hands-on projects to enhance practical skills and contribute effectively to technical endeavors.

SIDE PROJECTS

NOTE TAKER
April 2023 - April 2023

- Designed and constructed a user-friendly web application for seamless note-taking. The project not only showcased my proficiency in Front-End development but also demonstrated an efficient turnaround in delivering functional applications.

PASSWORD GENERATOR
March 2022 - April 2023

- Crafted a robust password generator tool with advanced security measures. This project showcased my commitment to creating innovative solutions that address real-world Front-End challenges.

TWITCH CLONE
January 2021 - February 2021

- Focusing primarily on the visual aspects. Applied my Front-End development skills to design a part of UI of the famous streaming platform.

SKILLS

- Technical: JavaScript, TypeScript, React, React Native, Expo, Next.js, Git, GitHub, Redux, Tailwind CSS, Drizzle, React Query, Zod, React Hook Form, Styled Components, Prisma, MySQL, Firebase, Supabase.
- Soft: Communication, Problem Solving, Adaptability, Quick Learning.
- Design Tools: Figma.
